Alumni engaging and mentoring students and sharing their industry experience in order to motivate them and get a guidance about how to start their career further.

Alumni have suggestion on the technofest to improve the quality of the project during the exhibition of the project. The suggestion is very much effective to the student for their improvement in the project. Also the student got good opportunity to meet their seniors to enhance their knowledge.

The suggestion of the alumni and their presence is the great and surprising moment for the teams and they had very much enough to know the small concept regarding the exhibition and is very much effective to the student for their improvement in the project. Also the student got good opportunity to meet their seniors to enhance their knowledge.
